10:15 – 10:30 Break
10:30– 11:30 Program
11:30 – 12:45 Lunch
12:45 – 01:45 Program
01:45 – 02:00 Break
02:00 – 02:45 Program
02:45 – 03:00 Break
03:00 – 03:45 Program
03:45 – 04:00 Wrap-up, door prizes, certificates
04:00 Adjourn

[A System for Reliability Transformation](#)

Understanding the complex interrelationships of maintenance and reliability within a system and their interactive effects enables management to develop methods to optimize the system to accomplish its aims.

Our system is a theory for reliability transformation. Transformation begins with the acquisition of knowledge. Knowledge enables management to understand why transformation is necessary and how to achieve it. This knowledge enables management to conceptualize enterprise reliability as a system with a purpose and future; to understand why certain management practices are ineffective and must be discontinued.

Learn to:

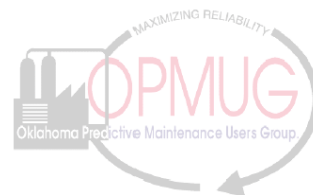

- Enable a system that allows people to cooperate and work together.
- Demonstrate how to build and support high self esteem.
- Allow you to build a culture for learning throughout the enterprise.

Food:

Continental Breakfast - provided by OPMUG

Lunch - \$8.00 available at Meridian Technology Center Cafeteria, includes buffet and drink

Afternoon Refreshments & Cookies: provided by OPMUG

A Not-For-Profit Corporation

Sponsored by OPMUG & the Department of Oklahoma Career Technology Education
